"Excellence in Science Learning for All"

Spotlight on... The Technician Strand

Any experienced Science Teacher will tell you the difference a highly capable Technician can make to the smooth running of your lessons and department. Technicians help us create the **MAGIC** in lessons!

At the ASE Science Conference 2023 we are delighted to have **Jackie McKie**, Head Technician from Philip Harris running a bespoke programme for our hard working "Techies".

Sessions in this strand include: Practical Physics, Solution Prep and Titration, a Round Table discussion with title, "What are your challenges and barriers to delivering "Excellence in Science Learning for All" and Safe Handling of Micro-organisms.

Conference Social

Join us for drinks and canapes at the conclusion of the Conference from 4pm onwards.

Celebrate **St Patrick's Day** in style!
All complimentary with your registration.

MARCH 17TH, 2023
