Positive Behaviours – Positive Attitudes

On Tuesday 27th August, we were pleased to welcome many parents to the first Parent Partnership Workshop of this academic year, and to share our new Positive Behaviours – Positive Attitudes poster.

Our students may be familiar with our whole school values of Well-Being, Learning and Global Citizenship. This poster makes these three strands more accessible and age appropriate.

We also introduced [the matrix](#) of positive behaviours and attitudes, organised under the three strands of Safe, Curious and Kind. Clearly shared expectations help us to promote and model the behaviours that we want our students to absorb as they progress through school. Please join with us in sharing and modelling these positive behaviours and attitudes.
