### **Progress Test in Mathematics (PTM) and English (PTE)**

Week Commencing 2nd September - PTM

Week Commencing 9th September - PTE

Dear Parents,

Over the last few years, we have been making advancements to our assessment and reporting practices here in the Primary school. This year, all students in **Years 4, 5 and 6** will complete two new annual assessments called: Progress Test in Mathematics (PTM) and Progress Test in English (PTE).

These standardised assessments will enable us to further understand your child's attainment and progress in Maths and English and make reporting systems even more robust. Both assessments will provide us with a wealth of data, at an individual, class and year group level, which will help us to make informed decisions about how to tailor our curriculum to the needs of our learners. As these assessments are part of the widely adopted GL suite, they also allow us to benchmark our data with other schools, both in the UK and internationally.

Your child will complete these assessments on the above dates in class time. Both assessments are online and take no more than 1 hour to complete. Students do not need any extra preparation for the assessments, as their class teachers will support and guide them through the process. Once we have analysed the results, we will share a summary of your child's results with you.

If you would like more information about PTM or PTE, please follow this [link](#). For information regarding data protection, please follow this [link](#).

Should you have any further questions, please contact me through the email link below.

Yours faithfully,

[David Walton](#)

Assistant Primary Principal: Assessment and Reporting
