Reporting System

Projected Grades:
In an effort to more accurately portray our student's achievements on their academic records, Projected Grades are used to report Term Grades for students in the International Baccalaureate programme. These grades are designed to demonstrate the students' expected level of achievement on the final exam including internal assessments, in relation to their achievement at that point in the course and are expected to demonstrate progress based on the wide range of evidence a teacher is able to accumulate on a student over a term. GPAs should not be calculated during the application review process without consideration of this grade context, especially when comparing them to standard American grading systems.

- There is no weighting of grades or calculation of Grade Point Average
- It is the policy of the school not to rank students
- In cases where universities require or request, Bangkok Patana School reports all changes to student enrolment status as a result of a serious disciplinary incident.

Policies and Procedures of Note:
- Bangkok Patana School students sign and submit an application integrity agreement before university applications are processed. This agreement ensures understanding of the Guide to Ethical Practice in College Admission outlined by the National Association of College Admission Counseling (NACAC)
- Bangkok Patana School students are limited to 10 well-considered applications to university. UC's, UCAS, OUAC, and Australian Tertiary Admission Centres each count as one.
- Bangkok Patana School policy allows for a maximum of one counsellor recommendation and two teacher recommendations unless otherwise required by a university.

Our mission is to ensure that students of different nationalities grow to their full potential
as independent learners in a caring British international community.

(I)GCSE Curriculum and Results 2024

The (International) General Certificate of Secondary Education are examinations which originate and are the standard qualification in England and Wales for students aged 14 to 16. All students take cumulative examinations in the following required core subjects:

English (Language and Literature)
Mathematics (Algebra, Calculus, Trigonometry, Statistics, Vector Geometry)
Coordinated Sciences (Single, Double Award or Triple Science)
World Languages (French, German, Japanese, Mandarin, Spanish or Thai)

In addition, students choose three from a list of optional subjects: Art, Business Studies, Computer Studies, Drama, Design + Technology, Economics, Geography, History, ICT, Music and Physical Education.
Grades are awarded on a nine-point scale, through one of two different examination boards. Cambridge grade from A* - G and Edexcel use a 9-1 scale, with 8 and 9 being considered equivalent to A*.
