7th October 2024

Dear Primary Parents,

We would like to inform you that there have been a few, well-managed and controlled incidents of Hand, Foot and Mouth Disease (HFMD) in the Primary school.

For your information, HFMD is a common viral illness that can spread easily. Symptoms to watch out for include:

- High temperature
- Rashes or blisters on the hands, feet, or in and around the mouth
- Sore throat
- General feelings of being unwell

If your child develops any of these symptoms, please keep them at home, seek medical advice, and inform the school promptly.

Please be assured we are taking proactive steps within the school to maintain a safe and healthy environment, including:

- Daily health checks by our nursing team
- Teachers actively monitoring students for symptoms
- Promoting good hygiene practices
- Enhanced daily cleaning and disinfecting routines

We appreciate your support and cooperation during this time and wish all our families continued good health.

Kind regards,

Sarah McCormack
Primary Principal

To all parents of children in Primary School
